Target Market Determination

To ensure that CSC is keeping customers at the centre of our approach to the design and distribution of our products, a Target Market Determination (TMD) has been made for ADF Super, PSSap and CSCri. A TMD describes the types of customers a financial product is appropriate for, based on their likely needs, objectives and financial situation (target market), and it establishes the conditions and restrictions in relation to how the product can be distributed to customers. The TMD also describes our reporting requirements, and events or circumstances where we may need to review the TMD.
