PSSap MySuper Balanced investment option

CSC – PSSap Public Sector Superannuation accumulation plan

Quarterly update | June 2026

Overview

Investment category: Multi-sector

Suggested minimum investment timeframe: 10 years

Standard Risk Measure[1]**:** 6/High

Investment style: Active

Manager style: Multi-manager

Aim and strategy

The 'Balanced' option aims to strike a balance between higher-growth opportunities and capital-preserving assets, with the goal of achieving a comfortable retirement for the longer term and a greater diversification in the sources of risk compared to most peers.

Return objective: CPI +3.5% per year after fees and tax, over 10 years.

Life stage (general guidelines): Middle to late stage of working life, or pre-retirement.

Estimated number of negative annual returns over a 20-year period: 4 to less than 6.

For more details, visit Investment options.

With a clearly defined member base, we're uniquely positioned to focus on the specific needs of Australian Government and Defence Force members—not just the 'average Australian'.

Our investment approach is purpose built to help provide our members with a surer path to a comfortable retirement.

[1] The standard risk measure (SRM) shows how often you might face negative returns over 20 years. It helps you understand risk and choose an investment that suits your super goals. Investment options and risk

101 Collins St, Melbourne
Contributing to consistently competitive returns for CSC customers.

Investment philosophy

CSC is focused on delivering dependable returns while carefully managing risk.

CSC's highly experienced Investment team rigorously stress tests the portfolio across a range of scenarios to uncover and address any potential vulnerabilities.

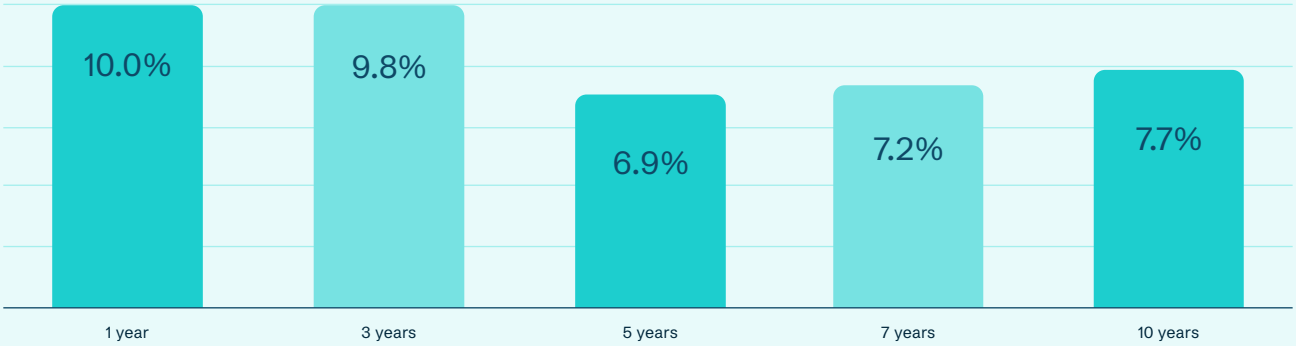

Strong governance supports agile decision-making and the ability to capture first-mover advantage before others enter the market by identifying opportunities early to invest in future-ready businesses.

With global best practice governance, proactive risk management and a forward-looking approach, CSC is well-positioned to deliver strong, long-term performance.

The 'MySuper Balanced' option has consistently outperformed peers within the SR50 Balanced Index[2] for risk-adjusted returns[3] ranking in **top quartile** for 1, 3, 5, 7-years[4].

Performance

PSSap MySuper Balanced

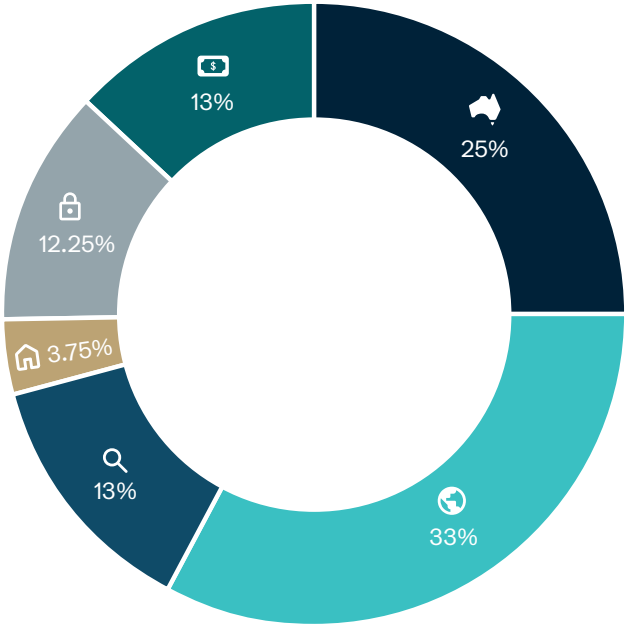

Investment performance as at **30 June 2026** and is calculated after fees and taxes. Past performance is no indication of future performance.

For historical investment performance, visit How we perform.

[2] The SR50 Balanced Index is a benchmark used by SuperRatings to compare the performance of Australian superannuation funds with balanced investment options, typically containing between 60% and 76% allocated to growth assets.
[3] Risk-adjusted returns are calculated by the Sharpe Ratio calculating the excess return (the return above the risk-free rate) relative to the standard deviation (a measure of risk or volatility) of an investment. A higher Sharpe Ratio indicates a more favourable risk-return trade-off, meaning the investment is providing higher returns for each unit of risk.
[4] SuperRatings' results for the period ending 31 December 2025.

General advice
The information in this document is intended as general information only, rather than financial product advice. This information has been prepared without taking account of any personal objectives, financial situation or needs. Therefore, each person should, before acting on any such information, consider its appropriateness, having regard to their or their client's personal objectives, financial situation or needs.

If you're looking to provide personal financial advice to a client, you should obtain and consider the Product Disclosure Statement and Target Market Determination before making any recommendations. For further support, contact our CSC Advice Partnerships team. CSC AFS Licence No: 238069

Target Market Determination
To ensure that CSC is keeping customers at the centre of our approach to the design and distribution of our products, a Target Market Determination (TMD) has been made for ADF Super, PSSap and CSCri. A TMD describes the types of customers a financial product is appropriate for, based on their likely needs, objectives and financial situation (target market), and it establishes the conditions and restrictions in relation to how the product can be distributed to customers. The TMD also describes our reporting requirements, and events or circumstances where we may need to review the TMD.
