PSSap Aggressive investment option

CSC – PSSap Public Sector Superannuation accumulation plan

Quarterly update | June 2026

Overview

Investment category: Multi-sector

Suggested minimum investment timeframe: 15 years

Standard Risk Measure[1]**:** 6/High

Investment style: Active

Manager style: Multi-manager

Aim and strategy

The 'Aggressive' option is a consistently strong performer compared to peers[2]. This option accepts higher volatility than our balanced fund, but only from risks we expect to be compensated for. We aim to avoid unintended risks and diversify to reduce the impact from risks that simply cannot be avoided. The result is strong relative returns regardless of market direction.

Return objective:	CPI +4% per year after fees and tax, over 10 years.
Investment horizon (i.e. anticipated time to retirement):	15 years.
Life stage (general guidelines):	Early to middle stage of working life.
Estimated number of negative annual returns over a 20-year period:	4 to less than 6.

For more details, visit Investment options.

With a clearly defined member base, we're uniquely positioned to focus on the specific needs of Australian Government and Defence Force members—not just the 'average Australian'.

Our investment approach is purpose built to help provide our members with a surer path to a comfortable retirement.

[1] The standard risk measure (SRM) shows how often you might face negative returns over 20 years. It helps you understand risk and choose an investment that suits your super goals. Investment options and risk

Investment philosophy

CSC is focused on delivering dependable returns while carefully managing risk.

CSC's highly experienced Investment team rigorously stress tests the portfolio across a range of scenarios to uncover and address any potential vulnerabilities.

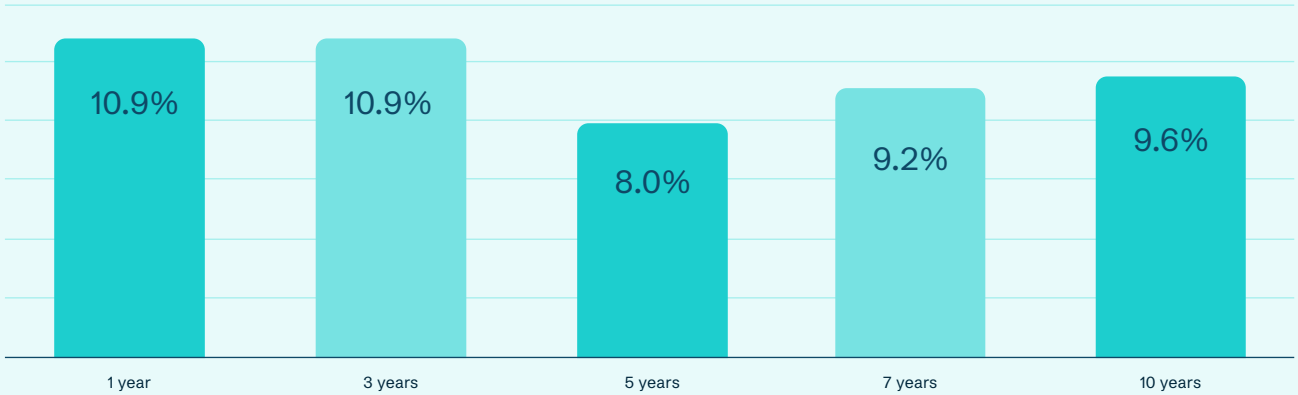

Strong governance supports agile decision-making and the ability to capture first-mover advantage before others enter the market by identifying opportunities early to invest in future-ready businesses.

With global best practice governance, proactive risk management and a forward-looking approach, CSC is well-positioned to deliver strong, long-term performance.

The 'Aggressive' option has consistently outperformed peers in the SR50 Growth Index[3], ranking **#1 out of 38 funds** for risk adjusted returns[4] across 7, 10, 15 and 20 years[5].

Performance

PSSap Aggressive

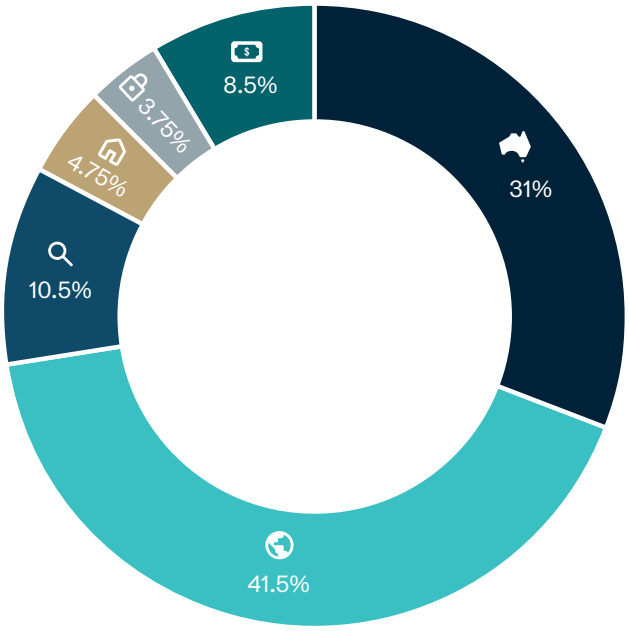

Investment performance as at **30 June 2026** and is calculated after fees and taxes. Past performance is no indication of future performance.

For historical investment performance, visit How we perform.

[3] The SR50 Growth Index is a benchmark used by SuperRatings to compare the performance of Australian superannuation funds with high growth investment options, typically containing between 77% and 90% of their assets allocated to growth assets like shares, signifying a high-risk, high-potential return investment strategy.
[4] Investment return per unit of risk shows how much return you get for the risk you take, assessing if the reward justifies the risk. The Sharpe Ratio calculates the excess return (the return above the risk-free rate) relative to the standard deviation (a measure of risk or volatility) of an investment. A higher Sharpe Ratio indicates a more favourable risk-return trade-off, meaning the investment is providing higher returns for each unit of risk.
[5] SuperRatings' results for the period ending 31 December 31, 2025.

Allocation

General advice
The information in this document is intended as general information only, rather than financial product advice. This information has been prepared without taking account of any personal objectives, financial situation or needs. Therefore, each person should, before acting on any such information, consider its appropriateness, having regard to their or their client's personal objectives, financial situation or needs.

If you're looking to provide personal financial advice to a client, you should obtain and consider the Product Disclosure Statement and Target Market Determination before making any recommendations. For further support, contact our CSC Advice Partnerships team. CSC AFS Licence No: 238069

Target Market Determination
To ensure that CSC is keeping customers at the centre of our approach to the design and distribution of our products, a Target Market Determination (TMD) has been made for ADF Super, PSSap and CSCri. A TMD describes the types of customers a financial product is appropriate for, based on their likely needs, objectives and financial situation (target market), and it establishes the conditions and restrictions in relation to how the product can be distributed to customers. The TMD also describes our reporting requirements, and events or circumstances where we may need to review the TMD.
