# Congratulations on your new job! Now it's time to think super.

The Department of Defence will soon start making contributions into a superannuation account to help you save for your future. Choosing the right fund to look after your savings is an important decision.

## New to CSC

We're the super fund for current and former Australian government employees.

With such a niche membership, we're committed to getting to know our customers and what they want from their super.

We take great care to look after your money responsibly and sustainably. Our focus is on growing your super over the long-term. We aim to achieve this by making quality **investments**, and preserving your savings against market uncertainty.

Sometimes the unexpected happens, and we're here for you if it does. We make sure that if you can't work because you're sick or injured, you and your family can still feel secure. Read more about your options by visiting [csc.gov.au/Members/Insurance-and-cover/](https://csc.gov.au/Members/Insurance-and-cover/)

As a profit-for-members fund, we only charge the fees needed to operate the fund.

A Target Market Determination (TMD) describes the types of customers a financial product is appropriate for, based on their likely needs, objectives and financial situation (target market), and it establishes the conditions and restrictions in relation to how the product can be distributed to customers. More information about CSC's TMD can be found at [csc.gov.au/tmd](https://csc.gov.au/tmd)

The information provided in this factsheet is general advice only and has been prepared without taking account of your personal objectives, financial situation or needs. Before acting on any such general advice, you should consider the appropriateness of the advice, having regard to your own objectives, financial situation and needs. You may wish to consult a licensed financial advisor. You should obtain a copy of the relevant Product Disclosure Statement (PDS) and consider its contents before making any decision regarding your super.
